Tille 37, Code of Federal Regulations, Section 1.56 <u>Duty to Disclose Information Material to Patentalnility</u>

- (a) A patent by its very nature is affected with a public interest. The public interest is best served, and the most effective potent examination occurs when, at the time an application is being examined, the Office is aware of and evaluates the teachings of all information material to patentability. Each individual associated with the filing and prosecution of a patent application has a duty of cander and good faith in dealing with the Office, which includes a duty to disclosure information exists with respect to each individual to be material to patentability as defined in this section. The duty to disclosure information exists with respect to each individual to the material to patentability as defined in this section. The duty to disclosure information becomes abandoned. Information material to the patentability of a claim that is cancelled or withdrawn from consideration need not be calmitted if the information material to the patentability of any claim remaining under consideration in the application. There is no duty to submit into material to the patentability of any claim remaining under consideration in the application. There is no duty to submit into material to the patentability of any claim remaining under consideration in the application. There is no duty to submit material to patentability is deemed to be satisfied if all information known to be material to patentability is deemed to be satisfied if all information known to be material to patentability is deemed to be satisfied if all information known to be material to patentability is deemed to be satisfied if all information known to be material to patentability is deemed to be satisfied if all information known to be material to patentability of any claim issued in a patentability of the Office of submitted to the Office in the manner prescribed by not 1.9% of the duty of disclosure will be granted on an application in connection with which fraud on the Office was practiced or altumped or the duty of disclosure was violated through bad faith o
 - (1) Prior art cited in search reports of a foreign patent office in a counterpart application, and
 - (7) The closest information over which individuals associated with the filling or prosecution of a patent application believe any pending claim patentably defines, to make sure that any material information contained therein is disclosed to the Office.
 - (b) Under this section, information is material to patentability when it is not complative to information already of record or being made or record in the application, and
 - (1) It establishes, by itself or in combination with other information, a prima facic case of unputchtability of a claim; or
 - (2) It refines, or is inconsistent with, a position the applicant takes in:
 - (i) Opposing an argument of unpatentability relied on by the Office, or
 - (ii) Asserting an argument of patentability.

A prima facte case of unpatentability is established when the information compels a conclusion that a claim is unpatentable under the proponderance of evidence, burden-of-proof standard, giving each term in the claim its broadest reasonable construction consistent with the specification, and before any consideration is given to evidence which may be submitted in an attempt to establish a contrary conclusion of patentability.

- (c) Individuals associated with the filing or prosecution of a patent application within the meaning of this section
 - (1) Fach inventor named in the application,
 - (2) Each attorney or agent who prepares or prosecutes the application; and
- (3) Every other person who is substantively involved in the preparation or prosecution of the application and who is associated with the inventor, with the assignee of with anyone to whom there is an obligation to assign the application.
- (d) Individuals other than the attorney, agent or inventor may comply with this section by disclosing influention to the attorney, agent, or inventor.
